

FYFE

Mechanical Design Drafter

Fyfe is a multidisciplinary engineering, planning, surveying and environmental consultancy with expertise in resources, infrastructure, land and property development.

Fyfe is seeking to employ an experienced Mechanical Design Drafter to join our team in Brisbane, initially on a casual or contract basis. Our team of experienced design drafters support the business in delivering a range of complex oil and gas projects to our enviable client base.

In this role you will be responsible for delivering a wide range of designs for oil and gas projects, ensuring work produced is of a high quality and delivered within the required time frame.

This will require a combination of communication skills and significant technical knowledge in the oil and gas industry.

Requirements

- Significant experience in design drafting of Oil and Gas projects in AutoCAD
- 3D Piping Design in AutoCAD Plant 3D
- Preparation of P&ID, Orthographic and Isometric drawings
- Smart Plant P&ID (SPPID) experience an advantage
- Survey drafting experience an advantage
- Point cloud in Cyclone and CloudWorx experience an advantage
- Strong knowledge of Australian design codes and standards
- Advanced communication and interpersonal skills

This position is initially available on a casual or fixed term basis with potential for longer term work.

The successful candidate will have a positive and professional attitude and be able to contribute to the technical capability of our team drawing on previous experience in mechanical design drafting.

If you believe you meet the above criteria and would like to join our team, please submit your CV to careers@fyfe.com.au

Applications close 23 June 2017. Agency Applications will not be accepted.
