

Registered Land Surveyor

Fyfe Pty Ltd is a well established national land, resource and infrastructure development consultancy specialising in surveying, town planning and engineering services for Australia's land development, energy, mining and oil and gas industries.

Our NSW operations located in Muswellbrook provide cadastral, land and engineering surveying services for a diverse group of clients from local developers and rural businesses to regional councils and major mining operations.

Our team in Muswellbrook are looking for an experienced Registered Land Surveyor to assist our existing team of Surveyors.

In this role you will manage the delivery of cadastral projects and oversee our current team of surveyors. This will include management of project schedules, budgets, resourcing, delivery and mentoring.

As the successful candidate you will demonstrate strong survey experience, underpinned by your background as a Registered Land Surveyor. This will be complemented by your effective communication skills and an ability to liaise with a range of stakeholders to expand the company's profile in the region.

The NSW branch is supported by Fyfe's head office, and part of this important role will be working in collaboration with other Fyfe offices.

Requirements

- Registered Land Surveyor in NSW essential
- Organisation and leadership experience
- Local client and project management expertise
- Well-developed interpersonal, communication and networking skills
- Sound understanding of appropriate legislation
- Experience performing business development activities highly regarded

If you believe you meet the above criteria and would like to take on this exciting role, please submit your CV to careers@fyfe.com.au by 30th June 2017.

Note, agency applications will not be accepted.
