

Project Summary

MURRAY BRIDGE Equine Precinct South Australia

Services provided include Surveying,
Civil Engineering, Project Management

Description: Land Development
Site area: 800Ha
Client: Murray Bridge Racing Club
Timeframe: 2006 and ongoing

Fyfe is undertaking the survey, engineering and project management activities for the relocation of the Murray Bridge Racing Club

The Murray Bridge Racing Club is relocating to new facilities over an 800ha site. Along with services to rezone, engineer & relocate the Club, Fyfe will assist with providing a new track, 90 two hectare lots for trainers, an equine hospital and training academy.

Fyfe's services are also required for the development of 3,500 housing allotments and the service infrastructure associated with it. We have been able to obtain rezoning of land for special uses and to provide the feasibility information for the development.
