

PROPERTY DEVELOPMENT & SURVEYS

Fyfe are leaders in property development and surveys

Company Overview

Fyfe Pty Ltd is an engineering consultancy and survey company with its head office in Adelaide, South Australia. Since Fyfe commenced in 1982 as a survey practice, the company has become a significant player in providing engineering consultancy services to the land development industry.

The Fyfe group of companies now employs more than 220 people located in eight offices throughout Australia – Adelaide, Brisbane, Darwin, Alice Springs and Roma and remote operation offices in Moomba and Ballera. Fyfe's other companies include MJ Hedges Geomeasure in Queensland, Allan Gilbert Associates in Adelaide and J Matthews and Associates in the Northern Territory.

Property Development Resources

Fyfe and its group of companies have more than 70 people working on property development projects in both South Australia, Queensland and the Northern Territory. Fyfe has maintained ISO 9001 Qualification certification since 1994 to ensure clients are provided with high quality services. Fyfe recognises that excellence in occupational health, safety and welfare is a priority in the day to day activities and work practices of the company. Fyfe has an excellent safety record.

Property Development Services

Fyfe can provide the following services to the Property Development Sector -

- Project Management of surveying and engineering disciplines for property development
- Preliminary investigations and studies to identify problems, examine alternative solutions and define courses of action for property development projects
- Conceptual subdivision layout and engineering head works.
- GIS, mapping and survey services for property development investigation and feasibility
- Preparation of development applications
- Design and preparation of working drawings, specifications, estimates of costs and contract documents for tendering purposes and construction for property development projects
- Road Safety Audits and reports

- Subdivision development including design and documentation for road works, stormwater, drainage, sewer, and water reticulation works
- Preparation of marketing and allotment development plans for subdivision estates.

Current and Completed Projects

Fyfe has extensive experience in property development projects including more than 350 major property development projects, 4,500 minor land development projects and 2,000 residential boundary surveys. Recently completed and current projects include -

- Murray Bridge Equine Precinct – Fyfe is providing engineering & survey services to this bold project to rezone, engineer and relocate the Murray Bridge Racing Club to new facilities over an 800ha site, providing a new track, 90 two hectare lots for trainers, 300 rural living lots and an equine hospital and training academy
- Martin Towers – Fyfe provided survey services to this innovative residential project creating 111 residential units in airspace title atop John Martins Car park
- 1200 allotment Northgate residential survey and development applications for AV Jennings Ltd
- Waterford Estate – an award winning residential development of 198 country living lots on the outskirts of Mount Barker for which Fyfe provided both engineering and survey services
- 670 allotment Aldinga Beach project survey, civil design and project management for Canberra Investment Corporation.
