

SURVEY WORK

Fyfe have more than 25 years experience in survey work

Company Overview

Fyfe Pty Ltd is an engineering consultancy and survey company with its head office in Adelaide, South Australia. Since Fyfe commenced in 1982 as a survey practice, the company has become a significant player in providing engineering consultancy to the resource and land development industries and Local and State Government.

Fyfe now employs over 220 people throughout Australia in eight locations including Adelaide, Brisbane, Darwin, Alice Springs, Moomba, Ballera and Roma. The Fyfe group consists of four companies; Fyfe Pty Ltd in Adelaide and Brisbane, MJ Hedges Geomeasure Pty Ltd in Brisbane and Roma, Gilbert & Associates Pty Ltd in Adelaide and J Matthews & Associates in Darwin.

Survey Resources

Fyfe currently employs more than 10 licensed surveyors operating from its offices throughout Australia. It also has 20 survey drafters located in the Adelaide and Brisbane office. Fyfe has maintained ISO 9001 certification since 1994, which ensures clients are provided with high quality services. Fyfe recognises that excellence in occupational health, safety and welfare is a priority in the day to day activities and work practices of the company. Fyfe has an excellent safety record.

Fyfe has 20 fully equipped survey vehicles available for field operations. Surveyors use the latest technology survey collection equipment including RTK GPS. Multiple software licences are available including AutoCad, ArcView, Mapinfo, Cad Overlay, Auto Cad Map, Infrasolf Software, CivilCad and Carlson. These are available to surveyors and drafters working on more than 40 graphical work stations.

Alignment Survey Services

Fyfe can provide the following survey services for petroleum pipelines, water pipelines, powerlines, main roads and drains:

- Initial field development planning
- Initial route selection and associated collection of risk assessment data
- Detailed route selection report including risk assessment data
