

# SURVEYING OPERATIONS

Hedges have more than 30 years experience in town planning and surveying operations

## Company Overview

Hedges is a town planning and surveying company with its head office in Brisbane, Queensland. Hedges has joined forces with Fyfe of Adelaide enabling both organisations to provide their clients with a more comprehensive service. Land Development Industry clients have benefited through a greatly improved depth of shared resources, additional areas of operation and the merging of ideas and experience with both companies having served the Land Development Industry for 30 years. The Fyfe Alliance currently employs more than 220 people located in eight offices throughout Australia; Adelaide, Brisbane, Darwin, Alice Springs, Moomba, Ballera and Roma.

## Surveying Resources

The Fyfe Alliance currently employs more than 50 surveyors operating from its offices throughout Australia. It also has 20 survey drafters located in the Adelaide and Brisbane offices. Fyfe has maintained ISO 9001 certification since 1994, which ensures clients are provided with high quality services. Fyfe recognises that excellence in occupational health, safety and welfare is a priority in the day to day activities and work practices of the company.

Fyfe has 20 fully equipped survey vehicles available for field operations. Surveyors use the latest technology survey collection equipment including RTK GPS. Multiple software licences are available including AutoCad, ArcView, Mapinfo, Cad Overlay, Auto Cad Map, Infrasoftware, CivilCad and Carlson. These are available to surveyors and drafters working on more than 50 graphical work stations.

## Services

Hedges, with the Fyfe Alliance, can provide the following surveying services for petroleum pipelines, water pipelines, powerlines, main roads, dams and drains:

- Initial field development planning
- Initial route selection and associated collection of risk assessment data
- Detailed route selection report including risk assessment data
- Detail and digital terrain surveys
- Alignment survey set out
- As constructed surveys

- Easement surveys
- Preparation of easement plans acceptable for lodgement
